**In brief** Since 1997, Revelation Software Concepts has earned the trust of some of the world's largest corporations by developing robust change control software solutions to reduce the risks and lower the costs associated with managing changes to SAP-based IT systems.

With a vision to simplify SAP change control, RSC's business strategy is 100% SAP-focused.

RSC's technologically innovative products demonstrate the company's readiness to think 'outside the box' when developing superior change control solutions that are simple to use, enhance business transparency and promote collaboration.

RSC takes pride in the collaborative relationship it has established with its customers, some of whom regard RSC as a de facto software partner and all of whom continue to provide valuable feedback and suggestions for further customer-driven product enhancements to RSC's tested and mature SAP change control technologies.

**Products** RSC's flagship product Rev-Trac® is a powerful, flexible and fully featured change control solution for SAP-based systems, hardened by years of use in some of the world's most demanding IT environments.

Salt Apps for SAP is a unique VM based platform containing a growing collection of change specific smart apps for SAP project teams and team members

**Distribution** RSC distributes its products directly and through a global network of independent sales consultants. RSC distributes software through this network in Australia, the United Kingdom and Europe, Malaysia, South Africa and throughout the US.

**Financing** RSC is privately held and funded.

**Milestones** **1997** David Drake founds Revelation Software Concepts Pty Ltd with a vision to develop software to assist SAP project teams and their members

**1999** Rev-Trac V 2.1 is released and installed at four sites

**2000** Overtake and Overwrite Protection (OOPS™) and extended locking are introduced in Rev-Trac to cut the risk of accidental system damage

**2001** RSC signs its first Fortune 100 company, with an agreement to deploy Rev-Trac in over 40 new sites and 100 SAP installations over 18 months

- 2002** Two more Fortune 100 companies and the first US governmental agency choose Rev-Trac as their SAP change control solution
- Rev-Trac becomes a truly global product, installed in over 150 SAP systems with customer sites in Australia, Asia, Europe, United States, Canada, South America, United Kingdom, Middle East and Africa
- 2003** Rev-Trac is officially launched in the United States at ASUG 2003 and wins an SAP FAQ Top 25 Members Choice Award in the same month
- Rev-Trac 5.0 is released
- Rev-Trac 5.0 receives SAP R/3 4.6 certification as an ABAP Add-on
- 2005** Rev-Trac 5.0 receives "Powered by SAP Netweaver" and SAP R/3 4.7 certification as an ABAP Add-on
- 2006** RSC expands European presence with multiple support and marketing partners
- RSC Web-enables Rev-Trac change control solution with launch of xPack Add-on
- 2007** Rev-Trac Deployment Manager released enabling automation of both ABAP and non-ABAP change package release and migration
- Rev-Trac achieves "Powered by SAP NetWeaver®" status for integration with SAP NetWeaver Application Server 7
- 2008** Rev-Trac's automated OOPS change control safety is extended to non-ABAP SAP system components
- Automatic mixed platform capabilities in support of CTS+ is added into Rev-Trac
- RSC introduces new Rev-Trac Add-On Suite, providing powerful modular functionality with optimized pricing for addition of new capabilities
- 2009** Rev-Trac 6.0 is released and achieves "Powered by SAP NetWeaver®" status for integration with SAP NetWeaver Application Server 7
- Rev-Trac integration with HP Quality Centre Sync Adaptor released
