Revelation Software Concepts Expands European Presence With Multiple Support and Marketing Partners

New partnerships establish European technical base for enterprises adopting the award-winning Rev-Trac change management solution for SAP® solutions

Las Vegas, Nevada – September 12, 2006 – Revelation Software Concepts Pty Ltd (RSC), an SAP® Software Partner and creator of the Rev-Trac® change control application for solutions based on SAP applications, today announced a significant expansion for local contact and support facilities in European markets. The expansion of RSC's European presence through established resellers and technical support firms in Europe reflects a large increase in inquiries from companies in Euro markets, where SAP solution-based applications continue to provide crucial, real-time business intelligence to an expanding number of leading enterprises.

RSC's Rev-Trac change management solution helps streamline the operation of live SAP solution-based systems, no matter how extensive. The new RSC sales partners specialize in SAP solution-based business information systems and provide a wide range of services and technical support to RSC customers and potential customers in their respective areas. The newly expanded roster of RSC sales, technical support and consulting partners includes:

- **France:** Invature (<http://www.invature.com>) selects the best technologies certified by SAP for integration with SAP solutions to assist its customers and help maximize their investment in SAP solutions. Invature has been providing software development and consulting for its client companies in France for over ten years.
- **Germany:** Libelle (<http://www.libelle.com>) develops solutions in the area of High Availability, Disaster Recovery and Business Continuity. The company has set new standards for data protection and its solutions have been implemented in over 200 locations across the world.
- **Finland:** ADSOTECH Scandinavia (<http://www.adsotech.com>) has its headquarters in Espoo, Finland. The ADSOTECH group provides IT infrastructure products and associated services to enterprises in all Nordic countries.

(more)

- **Holland:** TopForce (<http://www.topforce.com>), an acknowledged thought leader on Enterprise Portals, specializes in improving business performance, process management and transformation through its Portal Strategy & Consulting services.
- **United Kingdom:** London-based Complementary Application Solutions (<http://www.complementarysolutions.com>) has long-term, SAP solution-specific experience. It specializes in providing complementary products to its customers throughout the UK using SAP solutions.
- **United Kingdom:** Sapphire Business Consultancy (<http://www.sapphirebc.co.uk>), based in Birmingham UK, are specialists in providing SAP solution-based technical project management, technical architecture and Basis consulting to clients in Europe and North America

“These agreements further advance our commitment to providing a strong technical resource base for our European customers,” said Rick Porter, VP Business Development at RSC. “All of these companies exemplify ‘best practices’ support principles and will advance our presence as well as our responsiveness throughout the region.”

RSC's Rev-Trac 5.0 intercepts all system changes, enforces consistent change management procedures, and allows for fully automated propagation of changes within SAP solution-based systems.

Today's announcement was made at TechEd '06 in Las Vegas, SAP's largest technical education conference. More information on RSC's Rev-Trac, their expanded European Partner network, and other SAP application-focused products from RSC is available at <http://www.xrsc.com> and at TechEd booth #64.

About Revelation Software Concepts

Headquartered in Melbourne, Australia, Revelation Software Concepts Pty Ltd has earned the trust of some of the world's largest corporations since 1997, developing robust software applications that help customers obtain maximum competitive advantage from their SAP solutions. An SAP Software Partner, RSC's business strategy is 100% SAP solution-focused. RSC's change control tool Rev-Trac® and cross-application reporting product xReports® demonstrate the company's preparedness to think 'outside the box' when developing superior software solutions. Technologically innovative, both products reflect RSC's commitment to creating solutions that are simple to use and promote business transparency and collaboration. Rev-Trac 5.0 has achieved ABAP™ certification for SAP Basis Release 4.6 and additionally “Powered by SAP NetWeaver®” status for SAP NetWeaver Application Server Release 6.20. For more information, visit <http://www.xrsc.com>.
