

## **Revelation Software Concepts Named for Top 25 SAP FAQ Award**

**Leader in Change Management for Global Enterprise SAP Infrastructures Wins Prestigious Award From World's Largest Independent, Not-for-profit Organization of SAP Customer Companies and Partners**

NEW ORLEANS, LA -- (MARKET WIRE) -- 05/19/2003 -- Revelation Software Concepts Pty Ltd. (RSC), providing fine-tuned change management tools for SAP infrastructures, today announced it has won the distinguished 2003 SAP FAQ Members' Choice Top 25 Tools and Technologies Award. The announcement came during the nonprofit Americas' SAP Users' Group (ASUG) conference and vendor fair now under way at the Ernest N. Morial Convention Center in New Orleans.

The award specifically recognizes RSC's flagship product, Rev-Trac™, which integrates, automates and manages changes to large enterprise systems. Rev-Trac removes the risk and gives companies control over the change process, while simultaneously protecting vulnerable areas of the system from accidental damage during development.

The SAP FAQ, the world's largest independent, not-for-profit organization of SAP customer companies and partners, represents more than 1,000 companies running SAP/mySAP as their ERP/e-Commerce solution of choice. In the exacting arena of SAP landscape configuration and management, the organization's Members' Choice Top 25 Award is considered a premier recognition from technologists who are "in the trenches," keeping vast, global SAP-based enterprise networks running without interruption.

"We are honored that the SAP FAQ members considered us for this very distinguished award," said David Drake, founder of Revelation Software Concepts and prominent consultant, developer and configuration expert for SAP R/3 enterprise systems. "We know our change management technology is the best available for large enterprises and it is extremely gratifying to have the Members agree with us."

The annual voting by the 15,000-plus SAP FAQ members determines the third-party product "that had the greatest positive impact on their organization's SAP implementation/system" over the past 12 months and that the members "would therefore want their peers to know about." In what SAP FAQ officials described as an "overwhelming" response, RSC's Rev-Trac change management tool was selected for this year's award. The SAP FAQ will now feature the RSC logo prominently at its Members' Choice Top 25 Showcase Website at [www.sapfaq.com](http://www.sapfaq.com).

More information on Revelation and on Rev-Trac is available at [www.rev-trac.com](http://www.rev-trac.com).

### **About the SAP FAQ**

Since it was established by students and faculty of Germany's University of Oldenburg in 1994, the SAP FAQ has been a mainstay resource for SAP professionals through its widely used SAP Technical Support Discussion Forums. The SAP FAQ is a members-only, virtual "gated" community for the exchange of peer-to-peer technical and functional support of SAP's R/3 and mySAP software solutions. The SAP FAQ's forums are anchored by the highly acclaimed SAP-R3-L/mySAP Technical/Functional Support Forum, which was developed in conjunction with the Massachusetts Institute of Technology. Members representing more than 1000 leading organizations worldwide trust the SAP FAQ to provide a secure environment in which the

exchange of peer-to-peer technical support occurs effectively and professionally, in virtual real time. The SAP FAQ is located online at [www.sapfaq.comf](http://www.sapfaq.comf).

### **About Revelation Software Concepts**

Headquartered in Melbourne, Australia, Revelation Software Concepts Pty. Ltd. develops and publishes the technology-leading SAP change management solution, Rev-Trac. The company has followed its original vision to develop software specifically to aid SAP project teams and their members. Since 1997, the company has been perfecting Rev-Trac into a fully integrated, strategic approach to managing changes in complex SAP environments, providing safe, transparent and process-compliant SAP development for enterprise-class SAP infrastructure systems. For more information, visit [www.rev-trac.com](http://www.rev-trac.com).
